RESPECT ORIGINALITY

Collection of the most luxurious fabrics
and wallcovering brands in Iran

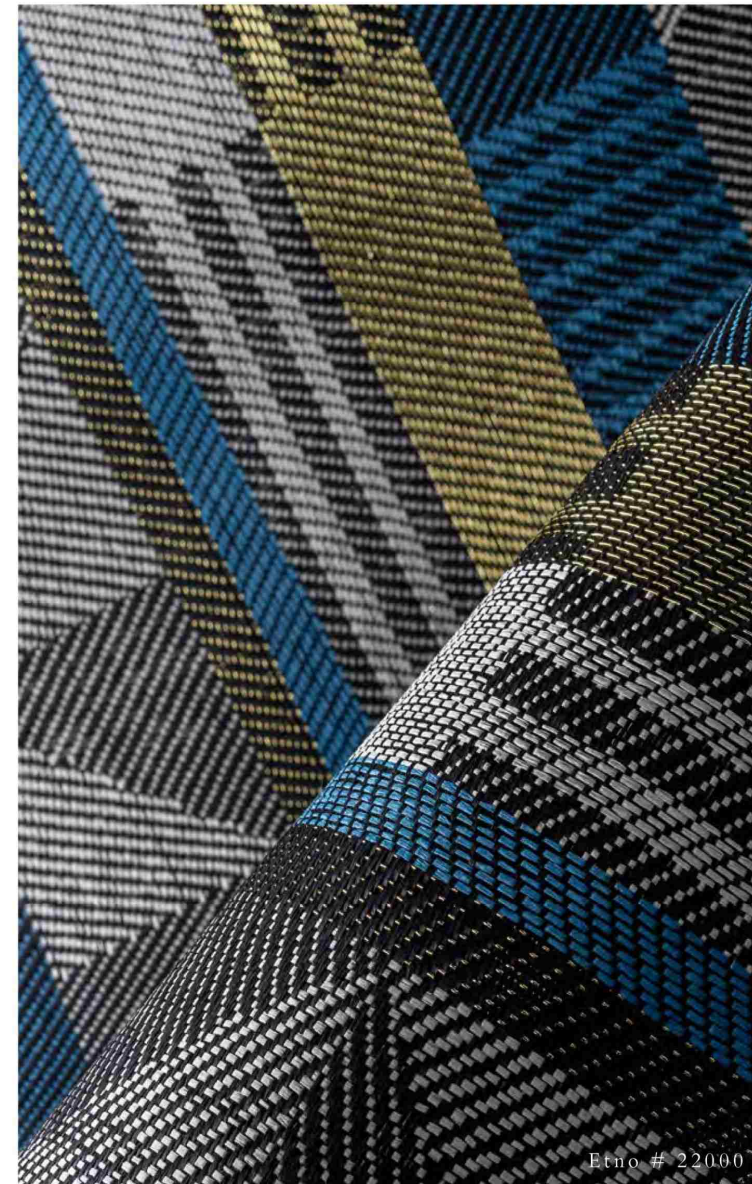

With over thirty five years' experience, Arte is well-known in the world of luxury interiors. Nowadays our sophisticated wallcovering is used all over the world, which is something we are really proud of. Every year we create an exquisite range of new collections which are designed in-house by a team of experienced designers. The emphasis is always on quality and innovation.

Manovo

Manovo, the largest national park in Central Africa, is the source of inspiration for this eclectic mix of botanical prints, geometric shapes and plain patterns. The jacquard technique used, weaves different colours of paper together, producing a pattern. This creates an abstract, photographic representation of the African savannah. Horizontal and vertical effects alternate, creating tension and relief.

Samal

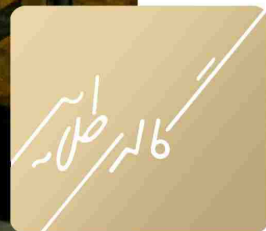

Samal is an island in the Philippines where capiz is harvested. These oyster-like shells are manually coloured, cut and inlaid in geometric patterns. Capiz is a real natural product; each shell is unique and differs in colour and structure. This makes this collection an exclusive and artistic wallcovering. In addition, the colour nuances of the mother-of-pearl vary according to the light, creating a surprising and constantly changing effect.

Essentials | Les Tricots

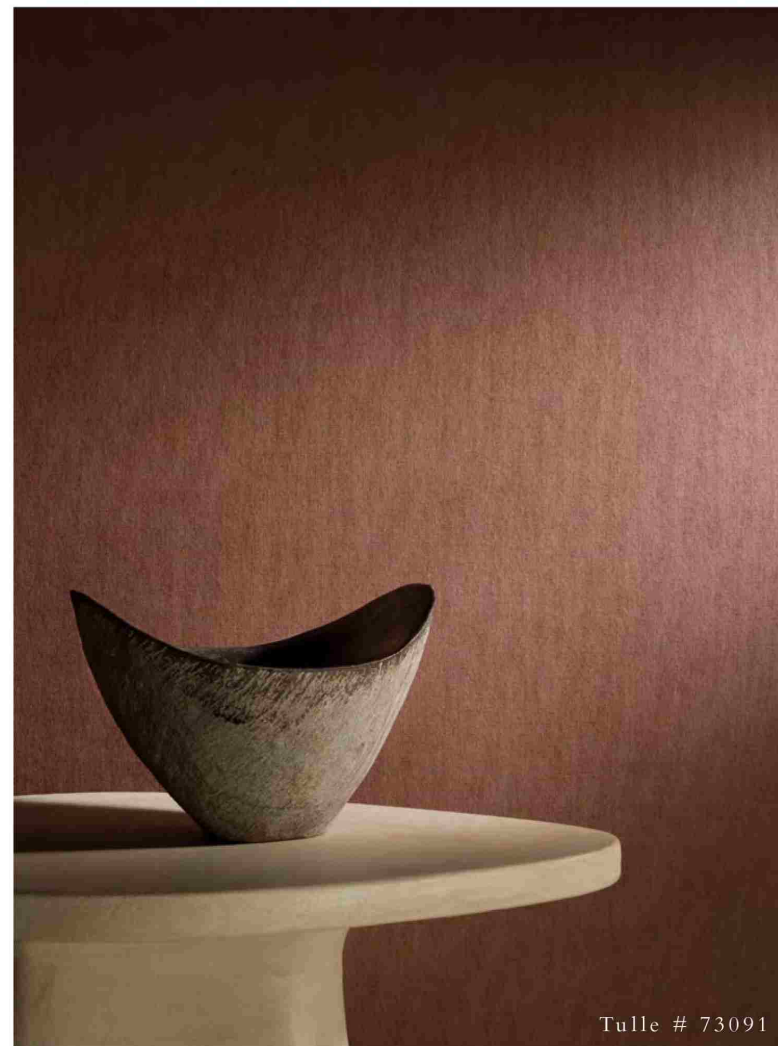

Les Tricots takes its inspiration from the haute couture fashion world with a clear nod to rich fabrics and specific textile techniques. It creates the illusion of real textile thanks to the combination of unique printing techniques and the use of velvety soft yarns.

The majority of the designs are modest and are very widely applicable to add structure to the wall in addition to colour. The pattern with a chintz look is an outsider that stands out for its shine and playful chalk lines in an explosive colour palette.

Icons

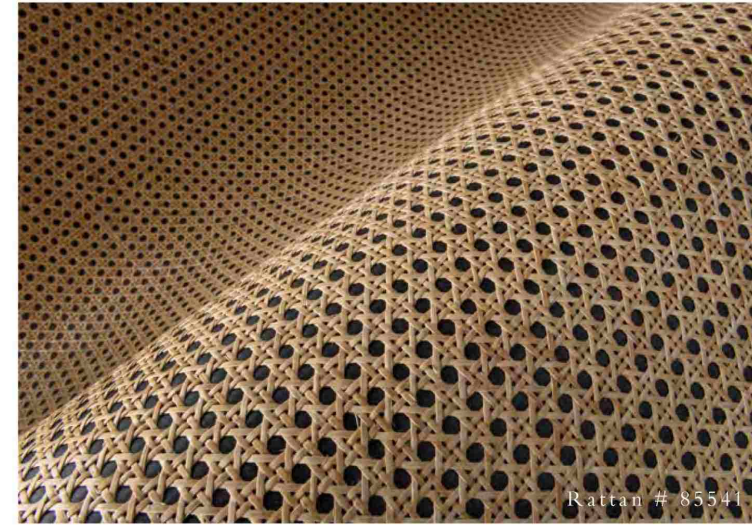

Icons charms with its versatility of materials, all established values in interior decorating, such as shagreen leather (galuchat), bouclé fabric, metal accents and rattan. However, the application of these evergreens on the wall is extremely surprising and original. Typical are the various geometric patterns that show a striking block motif. Not only the warm material mix is a surprising factor, the varying incidence of light and the play of matte and gloss also give an extra luxurious dimension.

Manila

Floral patterns in combination with organic shapes are the common thread throughout the Manila collection. Threads of different materials and thicknesses are meticulously placed in patterns by hand, creating a minimalist design with corresponding relief. The transposition of this artisan precision work to the wall results in a very refined and sophisticated look. Manila follows the interior design trend in which woven threads are integrated into various applications.
