Screen Blinds

Sunscreen Roller Blinds known as solar shading curtain are blocking harmful rays of the sun's ultraviolet rays. Sun screen blinds contain glass fibers so that providing heat savings. It also prevents any reflections on television and computer screen due to penetrating day light. Optionally, these curtains can be produced in a systematic control spring or chain. It is quite long lasting and washable.

Blackout Blinds

Blackout Blinds block lights and easy to use. They are similar to roller blinds.

Roller Blinds

Mobility is ensured by spring, mechanical and motorized mechanisms at Roller Blind. Opening and closing is provided by chain in mechanical model of Roller Blind. Opening and closing blinds in motorized system of Roller Blind is provided with the radio remote control or fixed wall switch. With unique patterns, and wide range of color, Roller Blind has very wide range from opaque fabrics to translucent fabrics. It is very useful for home and office decoration.
